GREEN-PRO D-LIME

Non-Acidic Non-Hazardous Kitchen Descaler

DESCRIPTION

CASTLE GREEN-PRO D-LIME represents one of the new generation of Castle 'Green Pro' range of products. Derived from organic surfactants and a low hazard salt of an inorganic acid. A light green clear liquid with a fresh Lime fragrance; Castle Green-Pro D-LIME is an economical, non-hazardous, bio based, environmentally sound product that can replace many common aggressive acidic hazardous based kitchen cleaning products.

D-LIME is manufactured specifically for use in kitchen areas for removal of Lime Scale deposits in Dishwashing Machines, Urns, Kettles and Bain Maries. **D-LIME** removes lime, scale and food soils from appliances, stainless steel, ceramic, glass and plastic kitchen items and surfaces.

PROPERTIES

D-LIME is a clear, lime green liquid. A carefully formulated and balanced blend of inorganic acid salt, and surfactants. **D-LIME** is readily miscible / able to be diluted with water.

DIRECTIONS FOR USE

Dishwasher De Liming:- Typically requires a solution of 50:1 water to **D-LIME** adding to the unit. Turn off the detergent dosing system, allow unit to fill with water, add **D-LIME** and run unit on normal (hot) cycle. When completed, drain, rinse and re-run with clean water only.

Descaling Coffee Urns and Kettles:- Add 10ml **D-LIME** per 1Litre of hot water (100:1), allow unit to stand for 15 – 20 minutes, then drain and rinse thoroughly with fresh water. Heavily scaled items may require stronger concentrations / longer time periods or multiple applications to completely clean.

PRECAUTIONS

D-LIME is a non hazardous cleaner, but as with any chemical product, simple OH&S precautions are advised. Care should be taken to avoid contact with skin and eyes. If splashed, remove contaminated clothing and bathe affected areas thoroughly with water. If swallowed, give milk or water. **DO NOT** induce vomiting. Contact a doctor or Poisons Information Centre immediately. For further information, consult **D-LIME** Material Safety Data Sheet.

FOR

Hospitals, Hotels, Motels
Restaurants
Canteens
Convalescent Homes
Cafeterias / Schools

- * D-LIME dishwashers / urns
- * Bain Maries
- * Kitchen appliances / surfaces
- * Powerful and effective
- * Kitchen specific formulation.
