Adjustable digital thermostat, 0 °C to 8 °C

*\*Safety regulations require careful preparation, handling and storage of food products at all times. Cold plate units operate with a single refrigeration coil attached to the underside of the tank, thus food is chilled from underneath. In contrast, Cross Fin coil units have an additional refrigeration coil located above the level of the pans that helps cool that space as well. For this reason, Roband highly recommends the consideration of Cross Fin unit for all situations. Unless users are absolutely certain that a single refrigeration coil will suit the purpose and are in compliance with food safety standards, Cross Fin coil units are recommended at all times.*

### SPECIFICATIONS

| MODEL   | NO. OF PANS | POWER Watts <sup>^</sup> | CURRENT Amps | DIMENSIONS w x d x h (mm) |
|---|-------------|--------------------------|--------------|---------------------------|
| DOUBLE ROW - COLD PLATE - INC. ROLLER DOORS & PANS                  |             |                          |              |                           |

<sup>^</sup>Nominal ref. capacity.

Note: RD signifies roller doors included. Sneeze guards cannot be fitted to the vertical control panel side when roller doors installed. Optional models available - CF, CFX. These units are piped and foamed for remote installation. Includes control panel, thermometer and light. Refrigeration unit not included.

Roband food display bars are designed to accommodate pans available from Roband Australia. Although other brands of pans may fit, this is not guaranteed due to variations in other manufacturers' pans.

Note: For overall height dimensions, add height of motor cage (450 mm).
